

U.S. EXHIBITOR DIRECTORY

North American Neighbors Pet Foods

December 6–7, 2022

Dear Canadian Partners,

We welcome you to join our Virtual Market Showcase “North American Neighbors: Pet Foods.” Our goal with this Virtual Market Showcase is to introduce U.S. exporters of pet food products to Canadian businesses, and to demonstrate to U.S. exporters the retail opportunities for their products in Canada.

You will have the opportunity to meet one-on-one with established U.S. exporters through the virtual business-to-business meetings during the Virtual Market Showcase, which will be held from December 6-8, 2022. The USDA Foreign Agricultural Service and our partners have consulted with each of the U.S. exporting companies to give them an overview of the Canadian market, including an overview of what it takes to be successful in Canada. We are confident the companies understand the complexities of exporting to Canada, and they are prepared to have constructive business meetings with you and your company.

We will be using the IMEX Export Marketplace as the online platform for the event. We encourage you to meet the participating U.S. companies and review their products through their exhibitor listings at naneighborspetfoods.usa-pavilions.com. Please free to submit questions to kboyce@boycemarketing.com or contact Kathy at 416-523-1470.

Thank you, and we look forward to your participation.

Sincerely,

Tyler Babcock

For over 25 years, Exclusively Pet, Inc. has been creating treats for dogs who are more than just pets. Two separate lines of treats offer the right snack at the right opportunity. Our baked cookie treats take inspiration from popular human treats but are formulated just for dogs. Exclusively Dog treats was created after noticing skin issues and allergies in our own pets. Our Exclusively Dog treats capture the same fun, human flavors we're known for, but remove any wheat, corn and soy from the treats. Both lines are natural and made in the USA, and always have been. Many of our treats are also made without animal origin ingredients.

Real Dog is an online dog wellness company. We pioneered a new category of convenient food that connects dogs with real nutrition. We specialize in food technologies and canine nutrition services. We build digital tools to help dog owners #feedreal food. We believe in feeding small-batch fresh food, but commercial dog food is centered around mass production. We designed a system to stay small within cities, buy local, and air-dry in small batches to serve millions of dogs fresh food. We supplement our food with digital tools to support dog owners on their wellness journey and teach them why and how to feed real food.
