Buyer's comment

FOODEX JAPAN 2021 Steering Committee Chairman

AFON RFTAIL **Operating Officer** General Manager Food Merchandising Division Nobuyasu Nanao

A lot of people found that "Frozen Foods" are preservative, convenient and delicious in "Corona crisis". I expect "Frozen Foods" provide many hints for the market development after "Corona crisis".

FOODEX JAPAN 2021 Steering **Committee Vice Chairman**

Mitsubishi Shokuhin Managing Executive Officer Deputy in charge of Trade Chief Operating Officer, Frozen & Chilled Foods Business Division Takashi Onose

I am sure that "Frozen Foods" can perfectly realize both of "Convenience" or "Shortening of Time" and "Taste". I expect all foods all over the world would appear on the dining tables in Japan as "Frozen Foods" in future from the perspective of high "recreation".

Innovation of Technology - Contribute to SDGs in Food & Beverage Industry **FOODEX TECH**

Why FOODEX TECH was launched

- To contribute to SDGs and sustainable food supply management -

In addition to the existing issues of productivity and logistics, food & beverage industries are facing new challenges regarding SDGs, such as reduction of CO2 emission and food waste.

Meanwhile, the new technologies represented as IT solutions, Eco-friendly packaging and Plant-Based Foods are emerging recently to tackle the issues and retain the sustainable eco-systems across the world.

As one of the largest platforms in Asia where food & beverage suppliers and buyers gather in one place, FOODEX JAPAN launched the featured category of 'FOODEX TECH' and started to introduce the latest technologies across the world and connect related business.

Title | Innovation of the retail business in Frozen foods

Summarv

Frozen food has become essential items for households especially after the COVID-19 disaster.

Frozen Foods can contribute to SDGs such as food storage and food waste, therefore the value of Frozen Foods will be raised. In addition, frozen foods have a abilities to change peoples diets such as authentic dish food delivery in the future.

While traveling abroad is limited due to the COVID-19, we expect that new frozen products from abroad will be developed in the future.
