We participate in the business meeting because we can have one-on-one negotiations. We are interested in various products like snacks, and by talking directly, we can understand each other and increase the chances of successful negotiations.

FOODEX Frozen

FOODEX FROZEN featured frozen foods, which are expected to be a solution to common social issues in developed countries such as changes in lifestyle, an increase in single households, and a decrease in labor due to population decline.

Starting in 2021, this year marks the fourth time holding the event.

It has grown to become the largest and only frozen food specialized exhibition in Japan.

We also conducted discussions and cooking demonstrations by chefs, which attracted attention from industry professionals.
