

# FEED INGREDIENTS LATIN AMERICA 2025

IN CO-LOCATION WITH

2  
ANIMAL  
FEED EVENTS  
UNDER ONE ROOF!

**16 – 18 SEPTEMBER 2025**

White Pavilion, Expo Center Norte, São Paulo, Brazil

## LATIN AMERICA'S LARGEST DEDICATED EVENT FOR **INGREDIENTS** AND **ADDITIVES** FOR THE **ANIMAL FEED PROCESSING INDUSTRIES**

Feed Ingredients Latin America is the niche-event focused on **innovation in animal nutrition formulation, ingredients and additives.**

In co-location with VICTAM LatAm, the 3-day event boasts two respective shows under one roof making it an all-round event for the Animal feed industry. **This is a unique opportunity to meet the most relevant players in the field of feed technology, nutrition, pharma, and genetics.**

The elaborate conference program will cover **a wide range of topics including fish farming, feed formulating, the insect industry and feed additives.**

With approximately 100 companies exhibiting, this event will give an all-round overview of products and innovations in the market.

Visitors to this event include CEO's, feed formulators, Mill Managers and Nutritionists.

### Why participate?

- ▣ Huge market potential
- ▣ In co-location with Victam LatAm this event will be the biggest event for the animal nutrition industry in Latin America
- ▣ Focus on the whole Latin American region
- ▣ High-quality visitors
- ▣ Elaborate conference program
- ▣ Complete event
- ▣ Exhibition participation is the best way to find partners and potential customers
- ▣ Bi-annual event

### Market Potential

- ▣ With approximately 1600 feed mills and a production of 90 million tons of animal feed, Brazil is the world's third largest feed producer.
- ▣ Brazil is also the world's fourth largest grain-producer (rice, barley, corn, soybeans, and wheat), following China, The United States and India. In 2023, Brazil produced the largest grain harvest ever at 320 million tons of grain.
- ▣ Latin American countries are major exporters of soybeans, pork, maize, poultry, and animal feed.
- ▣ Although Latin America accounts for only 13.5% of the world's population, the region produces over 23% of beef and 21.40% of poultry at a global level. In the area of eggs and milk, the region contributes more than 10%.
