

GLOBAL ENERGY SHOW

EXHIBITION & CONFERENCE

June 13 – 15, 2023
BMO Centre, Stampede Park,
Calgary, Canada

**NORTH AMERICA'S
LEADING ENERGY EVENT**

**2023 SAMPLE
ATTENDEE LIST**

[GLOBALENERGYSHOW.COM](https://www.globalenergyshow.com) #GLOBALENERGYSHOW

Stakeholder

Organized by **dmg** events

As North America's Leading Energy Event, the Global Energy Show is the largest B2B exhibition and conference engaging with industry buyers and sellers, stakeholders and partners, CEOs and young professionals together to share knowledge and fuel innovation in the ever-changing energy landscape.

**GLOBAL
ENERGY SHOW**
exhibition and conference

Hosted on June 13-15, 2023 the Global Energy Show will be inclusive to all energy systems, including features on the exhibition floor and conference in oil sands, hydrogen, wind, solar, petrochemicals, gas and LNG, electrification and nuclear. As no single source of energy can meet the increased global energy demand, the Global Energy Show is where Canada demonstrates its vision and leadership by bringing the right people together to meet global challenges with real-world solutions.

Together at the Global Energy Show in 2023, energy professionals will come together to lead the path of meeting energy demand, discussing energy transition, showcasing technology and innovation, and discovering the role of all energy sources in the greater energy system.

 **GREENGATE**

“

Thank you, Global Energy Show, for a wonderful conference last week. The energy landscape is changing in Alberta and as a leading renewables company, Greengate was pleased to be part of this event and the important conversations that took place surrounding the energy transition.

”
