**JUNE 11-13, 2024**

CALGARY, CANADA | BMO CENTER

**GLOBAL  
ENERGYSHOW**  
EXHIBITION & CONFERENCE CANADA

## Join North America's only full integrated energy event

Energy demand in Canada has increased and is projected to continue growing in the near term. In addition to increased oil & gas production, Canada also looks to pivot towards different technologies as the transition to more efficient use of energy is needed to meet net-zero scenarios.

U.S. exporters are uniquely positioned to meet Canada's needs in the coming years as oil and gas production continues to grow and new innovations and technologies are adopted.
