Your gateway to Vietnam's livestock market and beyond

Find new business in one of the most robust Southeast Asian markets for feed, swine, poultry and aquaculture. Livestock experts and leading exhibiting companies say ILDEX Vietnam is the best international business platform to tackle the Vietnamese market.

Although challenged by COVID-19 and lingering diseases, the demand in the Vietnamese market is predicted to increase significantly within the upcoming years. Post-pandemic, Vietnam's economy rebounded in 2022, with a strong GDP growth of 8 percent. The agriculture and fishery sectors have made up a large part of this growth.
