

Movement Announcement

SHANGHAI – May 16, 2022

Dear exhibitors, visitors and partners,

Due to the latest development of the pandemic situation in Shanghai, and in accordance with the local government's requirements, we regret to announce that **the 24th Pet Fair Asia has to be moved to Shenzhen and will take place during August 31- September 3, 2022.**

The plan to provisionally move the exhibition to Shenzhen in 2022 was based on various considerations. This city has developed strong momentum in recent years. Being a central city in the Guangdong - Hong Kong - Macau Greater Bay Area, it plays an important role in China's foreign trade. Meanwhile, due to its effective epidemic prevention policy and urban management, the city already plans to reopen trade fair doors, thus sending a clear message of recovery for the exhibition industry.

After consultation and communication with major stakeholders and partners, we believe moving Pet Fair Asia is the most reasonable option at this moment to protect the health and vital interests of all participants and ensure a successful event for the pet industry community.

Over the years Pet Fair Asia has become a must-attend annual meeting for all professionals in Asia. We sincerely apologize for the inconvenience caused to exhibitors, visitors, and partners due to the movement of the exhibition and look forward to seeing all of you during the new dates in Shenzhen.

At last, we feel glad to announce that **Pet Link Asia, the online platform of Pet Fair Asia will also return in 2022, bringing with its series of online match-making programs during September 14 to 30.** The online registration will open in July. You can get more information about the event via our official website www.petfairasia.com and petlink.petfairasia.com.

The Organizer

Pet Fair Asia Ltd.
