Decarbonisation · Collaboration · Thought-Leadership

Integrating offshore energy transition with market opportunities at OSEA (Offshore Sustainable Energy Asia) 2024!

With an illustrious 49-year legacy of steering the offshore industry through ever-changing market tides, OSEA will take place this **19 - 21 November 2024**.

Experience the grandeur of Asia's most expansive offshore and marine showcase at the iconic **Marina Bay Sands**. Join us as we set the compass towards a zero-carbon horizon, unveil groundbreaking new energies, and outline pioneering technologies for the offshore sector's pivotal role in decarbonisation.

As the energy landscape transforms, OSEA stands as the pivotal platform for urgent, transformative dialogues on decarbonisation and innovation. Step into the future of net-zero ambitions, embrace the digital surge and tap into emerging energy powerhouses like offshore wind and hydrogen. Join a stellar gathering of thought leaders as they deep dive into carbon markets, innovative decarbonisation tech, and the rise of CCUS future with OSEA!

The Great Convergence at OSEA 2022 was not only evident in terms of the wide range of industry participants across the value chain but also in terms of the participant's mindset change towards leveraging all capabilities to address the threat of climate change. ”

Event Highlights

TechX@OSEA

Engage with tomorrow's solutions today at TechX@OSEA!

The exhibition will showcase the best in offshore technology trends, ranging from digitalisation to robotics, as well as outstanding technologies and solutions aimed at offshore energy exploration and production. Meet startup founders, incubators, investors, and tech leaders at the OSEA Exhibition.

ClimateTech Zone

ClimateTech Zone is a pioneering exhibition space dedicated to decarbonising offshore energy. A blend of groundbreaking decarbonisation technologies, digitalisation, and innovations will be showcased as practical steps to the future of sustainable energy at the exhibition.

OSEA Academy

The OSEA Academy highlights talent evolution in offshore energy. The Academy dives into transformative upskilling, reskilling initiatives, and explores cutting-edge research and development insights, innovations, whitepapers, and hands-on workshops.

Offshore Marine & Logistics

Engage with offshore supply chain professionals and stakeholders, showcasing the latest trends in marine equipment, floating production, drilling, and production systems. Explore advanced logistics, transport vessels, and offshore exploration and production infrastructure solutions with an emphasis on robotic & autonomous systems prioritising safety, sustainability, and offshore operation optimisation.

Community

OSEA Energy Week unveils an exclusive showcase spotlighting diversity and inclusion initiatives and championing local youth talent through Institute of Higher Learnings and Agencies. Experience the future of the energy and offshore community, cultivated from diverse backgrounds and fresh perspectives.

Knowledge Sharing Theatre

Dive into a carefully curated series of presentations and product demonstrations that spotlight industry-leading products, groundbreaking technologies, and innovative solutions. Seize partnership opportunities and gain insights into commercial and technical market trends from the foremost experts.
