Integrating Offshore Energy Transition with Market Opportunities

With a 50-year legacy of supporting the offshore energy sector, OSEA stands as Asia's premier platform for industry players to connect, share insights, and uncover new business opportunities across the offshore energy value chain.

Championing global energy transition goals, OSEA brings together industry leaders and visionary innovators to showcase cutting-edge solutions, actionable pathways, and breakthrough technologies driving the offshore energy sector forward. Through its curated conferences, dynamic marketplace, and high-value networking, the event transforms ideas into action, accelerating progress towards a lower-carbon future. Join us and play an active role in shaping the future of offshore energy.

What to Expect

Top Visitor Profiles

- International & National Oil Company
- Engineering, Procurement & Construction
- Shipbuilding & Marine Engineering
- Oil & Gas Exploration
- Classification Societies
- Maintenance, Repair & Operations
- Oil & Gas Processing / Refinery
- Oilfield Operators
- Pipeline Operation
- Process Engineering

and many more...

Top Exhibitor Profiles

- Maintenance & Repair
- Offshore Engineering & Fabrications
- Shipbuilding & Repair Yards
- Power, Umbilicals & Cable Systems
- Chemicals, Fluids & Lubricants
- Instrumentation, Automation & Control
- Decarbonisation Solutions
- Carbon Capture Usage & Storage
- Offshore Support Vessels
- FPSO Vessels & Equipment
- Pipelines & Piping Component

and many more...
