

PRELIMINARY PROGRAM

Draft version - June 2022

Cities inspired by People

Leonardo Da Vinci was known to go around with his notebooks and write and draw out things as they came to him. For Isaac Newton, an apple fell then things pulled together. Inspiration seems something that occurs spontaneously and therefore cannot be planned. But still. At Smart City Expo World Congress, we believe that inspiration is an expression of ideas that make the best in us and our environment possible.

As so, inspiration is embodied by creative people and meaningful connections. People are those who can provide cities with a new reference point of what is possible. People are city changers. Cities are transformed through people.

Last year, the Smart City Expo World Congress celebrated its 10th anniversary with a comeback edition that exceeded all expectations. This year all figures are projected to increase over the forecast horizon, similar to pre-pandemic volume.

Environmental footprints are still alarming, the COVID health crisis is lingering and a geostrategic shake of the global stage is challenging what we thought was the progress of the 21st century.

Cities inspired by People

In this scenario, it's more necessary than ever to reflect on how cities can do their part to make the world a better place, to see what measures work well, which don't and how to get new ideas to brace for challenging times.

At **Smart City Expo World Congress 2022**, we want to talk about **Cities Inspired by People**, sustainable cities in which public transport coexists with new mobility options; inclusive cities where streets and public services are accessible for all; safe cities which address both security and privacy concerns; collective cities where collaboration and participation becomes a pivot to build a better, thriving future.

After ten years helping smart cities flourish, we enter a new decade with a global, ever-growing community of urban leaders shaping what's next for cities. **Let's keep spurring the smart urban revolution towards human-centric cities always inspired by people.**

SAFETY & SECURITY

HIGH-LEVEL ROUNDTABLES

PRELIMINARY SESSION TITLES

ENABLING TECHNOLOGIES

Connected Cities Make It Further

ENERGY & ENVIRONMENT

Cities At The Frontline of Climate Action

GOVERNANCE & ECONOMY

Collaborative Governance in the Data-driven Age

LIVING & INCLUSION

Cities Made for Citizens' Needs

INFRASTRUCTURE & BUILDINGS

Infrastructure Shaping Cities For The Better

SAFETY & SECURITY

Are Smart Cities Putting Safety First?

ENABLING TECHNOLOGIES + LIVING & INCLUSION

When Technology Becomes a Push for Inclusion

HIGH-LEVEL ROUNDTABLES

Guided conversation among 3-4 speakers aimed at sharing their vision on the topic of the session and prompt debate among them.

Venue: Main Auditorium (Capacity: 700 attendees)

Speakers' profile: leading thinkers, high-level governmental authorities and executives from global companies or international organizations.

Topic of the session: Defined by SCEWC/Congress Team. The chair will contact all speakers in advance in order to discuss the type and content of questions to be addressed in the roundtable.

45min

 chair  speaker

1'	Introduction	
4'	First round of visions (1' per speaker)	    
	 NO PPT IS ALLOWED !	(1') (1') (1') (1')
30'	Debate	    
8'	Q&A	    
2'	Wrap up	

ENABLING TECHNOLOGIES

PRELIMINARY PROGRAM - TOPICS AND TENTATIVE SESSIONS TITTLES

ARTIFICIAL INTELLIGENCE

Algorithm Ethics, Algorithms, Artificial Intelligence, Deep Learning, Smart Devices

Roundtable 1 (tentative title):

Are We Ready to Let AI Manage a City?

CONNECTIVITY

Connectivity, 5G, 6G, Latency, Wifi6, IOT

Roundtable 1 (tentative title):

The Transformative Power of 5G in Cities

DATA

Big Data, Data Analytics, Data Integration, Data Lake, Data Management, Data Storage, Data Infrastructure

Roundtable 1 (tentative titles):

The Emerging Data-driven City

ENABLING TECHNOLOGIES

PRELIMINARY PROGRAM – TOPICS AND TENTATIVE SESSIONS TITTLES

DIGITAL SERVICES

Simulated Environments, Digital Twins, Metaverse, Virtual Reality, Robotics, Blockchain

Roundtable 1 (tentative title):

**Disruptive Tech
Unlocking/Empowering
Digital Services**

CLOUD & PLATFORMS

City Platforms, Cloud Computing, Cloud Storage, Edge Computing, Hybrid Data Storage, IaaS, PaaS

Roundtable 1 (tentative title):

**Cloud Platforms Powering
Next-gen Smart Cities**

INTERNET OF THINGS

IoT, Machine to Machine Communication, Networked Devices, Sensing

Roundtable 1 (tentative titles):

The Role of IoT in Future-ready Cities

ENERGY & ENVIRONMENT

PRELIMINARY PROGRAM - TOPICS AND TENTATIVE SESSIONS TITTLES

CLIMATE EMERGENCY

Adaptation, Climate Change, Climate Emergency, Decarbonisation, Energy transition, GHG Emissions, Green Deal, Mitigation, Regenerative by design, Renewables, Urban Resilience, Urban-rural Linkages

Roundtable 1 (tentative title):

Are Climate Agendas Strong Enough?

CLEAN ENERGY

Decentralized Energy, Energy Efficiency, Energy Storage, Energy Transition, Grids, Hydrogen-powered, New Energy Models, Low Emissions Tech, Renewables

Roundtable 1 (tentative title):

An Energy Mix to Bring Us to Net Zero

or

High Ambitions for Lower Emissions

LOW-CARBON TECH & CIRCULARITY

Circularity, Cleantech, Cooling Systems, Cradle-to-cradle, Low Emissions Tech, Rainwater Systems, Recycling, Regenerative by design, Smart Street Lighting, Smart Utilities, Sustainable Garbage Processing, Sustainable Tech, Urban services, Waste management, Water management, Zero Waste

Roundtable 1 (tentative title):

Reaching Circularity in Urban Services

GOVERNANCE

PRELIMINARY PROGRAM – TOPICS AND TENTATIVE SESSIONS TITTLES

REGULATION & STANDARDS

Open Government, Legislation, Policies, Policy-making, Regulations, Standards, Standardization

Roundtable 1 (tentative title):
Can Standards Scale-up Smart Cities?

COLLABORATION

Alliances, Collaboration, Cross-sector Governance, Multilevel Governance

Roundtable 1 (tentative title):
Going Further Together Through Collaborations

PARTICIPATORY SCHEMES

Best Practices, Co-creation, Citizen Engagement

Roundtable 1 (tentative title):
Designing the City from the Bottom-up

LIVING & INCLUSION

PRELIMINARY PROGRAM – TOPICS AND TENTATIVE SESSIONS TITTLES

HOUSING AND AFFORDABLE CITIES

Affordability, Cities for All, Co-housing, Gentrification, Housing, Informal Housing, Innovative Housing Models, Right to Housing, Right to the City

Roundtable 1 (tentative title):

No Citizens Without an Affordable Home

POST-PANDEMIC RECOVERY

Diseases, Health, Healthcare, Public Health, Social Inequality

Roundtable 1 (tentative title):

Post-pandemic Cities: Are We More Resilient Than Ever?

LIVING & INCLUSION

PRELIMINARY PROGRAM – TOPICS AND TENTATIVE SESSIONS TITTLES

REFUGEE CRISES

Climate justice, Migration, Social Inclusion

Roundtable 1 (tentative titles):

Urban Readiness For Refugee Crises

SYSTEMIC INEQUALITIES

Ageing Populations, Cross-district Equity, Digital Divide, Ethnic Inclusion, Gender Equality, Minorities, Physical Inclusion, Racial Justice, Social Inclusion, Social Inequality

Roundtable 1 (tentative title):

Tearing Down the Barriers to Equality

ECONOMY

PRELIMINARY PROGRAM – TOPICS AND TENTATIVE SESSIONS TITTLES

FINANCING TOOLS

Financing Schemes, Global Funds, Investment Models, Multilateral Institutions, Philanthropies, Regional Investment Banks, Taxes

Roundtable 1 (tentative title):

Urban Innovation: Who Pays the Bill?

ECONOMIC MODELS

Circular Economy, Sharing Economy, Innovation Ecosystems, Economic Models, Talent Attraction, International Projection, Start-ups, Local Economic Development

Roundtable 1 (tentative title):

New Economic Models Driving Growth

FUTURE OF WORK

Future of Education, Future of Work, Future Skills, Talent Attraction

Roundtable 1 (tentative title):

The Future of Work Has Already Started

INFRASTRUCTURE & BUILDINGS

PRELIMINARY PROGRAM – TOPICS AND TENTATIVE SESSIONS TITTLES

CONSTRUCTION TECHNOLOGIES

AI, Augmented Reality, Big data, BIM, Building Automation, Cloud, Design Services, Digital Tools, Digital Twins, Drones, Innovative Building Technology. IoT, Machine Learning, Modular Construction, Robotics, Smart Buildings, Smart Infrastructures, Street Furniture, Virtual Reality, 3D Modelling, 3D Printing

Roundtable 1 (tentative title):
**Technology Paving
Tomorrow's Towns**

DECARBONISATION

Carbon Reduction, Decarbonisation, Electrification, Energy Efficiency, Green Building, Nearly Zero-Energy Buildings (NZEB), Parks, Public Space, Smart Buildings, Smart Infrastructures, Urban Planning, Zero Emission Buildings

Roundtable 1 (tentative title):
**Hitting Green Goals Through
Zero-emission Buildings**

BUILDINGS & INFRASTRUCTURE MANAGEMENT

Asset Management, BIM, Building Automation, Built Environment, Community Facilities, Co-housing, Co-working, Digital Tools, Digital Twins, Intelligent Security Systems, Facility Management, Property Management, Real Estate, Refurbishing, Retrofitting, Smart Buildings, Smart Infrastructures, Urban Facility Management, Urban Management, Urban Planning, Workplace Management

Roundtable 1 (tentative title):
**Effectively Delivering Well-
Managed Infrastructure**

SAFETY & SECURITY

PRELIMINARY PROGRAM – TOPICS AND TENTATIVE SESSIONS TITTLES

CYBERSECURITY

Data Protection, Data Security, Digital Rights, Fraud detection, Phishing, Safety Engineering

Roundtable 1 (tentative title):

Privacy in the Digital Age

Roundtable 2 (tentative title):

Are Our Cities Prepared to Face Cyberattacks?

RESILIENCE & RISKS

Disaster Risk Management, Emergency Response, Crisis Management, Critical Infrastructures, Resilience

Roundtable 1 (tentative title):

Staying Resilient Ahead of Risks

Roundtable 2 (tentative title):

Smart Emergency Response: The Self-Defending City

SAFE PUBLIC SPACE

Critical infrastructures, Surveillance, Urban Safety, Public Safety, Physical Security, City Sovereignty

Roundtable 1 (tentative title):

Smart Solutions for Safer Public Spaces

CONGRESS SESSIONS

This year's Congress will gather the content in different 90-minutes capsules of dedicated sessions highlighting critical smart city issues and focusing the debate on thematic blocks.

With its combination of formats, these sessions will allow participants to dive deep into a specific hot topic shaping the present and future of smart cities. Every content capsules will hold the following diversity of sessions:

- Keynote
- Roundtable
- In Focus / Solution Talks
- Burning Debate / Dialogue

THEMATIC ROUNDTABLES

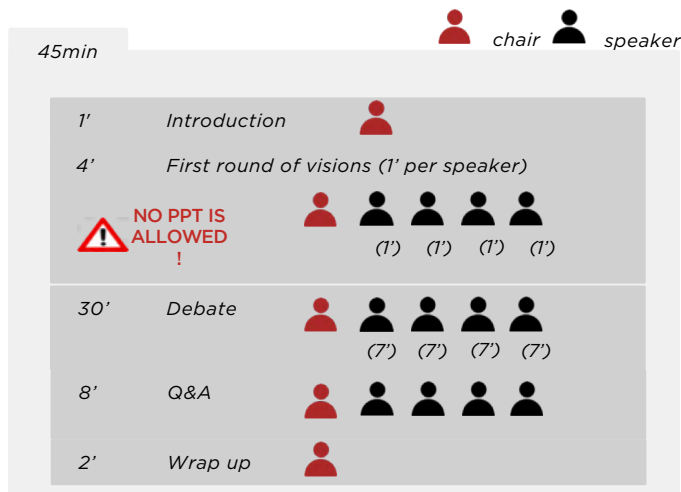

Guided conversation among 3-4 speakers aimed at sharing their vision on the topic of the session and prompt debate among them.

Venue: Thematic room

Speakers' profile: experts, governmental representatives (mayors, C-levels from municipalities), C-levels from companies

Topic of the session: Defined by SCEWC/Congress Team. The chair will contact all speakers in advance in order to discuss the type and content of questions to be addressed in the debate.

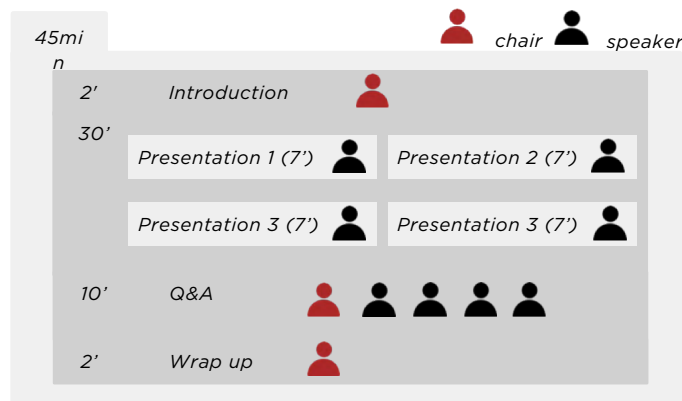

IN FOCUS (PRESENTATIONS)

GLOBAL PARTNERS | EVENT PARTNERS

Session aimed at presenting and discussing the latest developments on the future of our cities based on real experiences, projects and practices. PPT is allowed.

Venue: Thematic rooms

Topic: Sessions' titles and content defined by the SCEWC organizers. Presentation title and content defined by the partner and shared in advance with the organizers.

THEMATIC KEYNOTE

INDUSTRY PARTNERS

15min

 chair  speaker

1'

Introduction

10'

Keynote speech

4'

Q&A with audience

Wrap up

A 15' engaging and inspirational speech by a thought leader covering a specific topic in depth.

Venue: Thematic rooms

Topic: Theme of the keynote speech defined by the industry partner and shared in advance with the organizers.

BURNING DEBATE / DIALOGUE

INDUSTRY PARTNERS

15min

 chair  speaker

3'

Introduction

15'

Debate > contrasting views

2'

Wrap up

Venue: Thematic rooms

Topic: Sessions' titles and content defined by the SCEWC organizers. Presentation title and content defined by the partner and shared in advance with the organizers.

Session aimed at presenting and discussing the latest developments on the future of our cities based on real experiences, projects and practices. PPT is allowed.

MOBILITY TOPICS 2022

**TOMORROW.
MOBILITY**
WORLD CONGRESS

MOBILITY

MICRO MOBILITY

Active Mobility, Business Models, Cycling Lanes, Urban Vehicle Access Restrictions, Shared Mobility, Insurance and liability, Individual Mobility, MaaS, Walkability, cycling, lightweight vehicles, e-Scooter, Non-motorized Mobility, recharging station, mobility service providers, Insurance and liability, ridesharing.

PUBLIC TRANSPORT

First/Last Mile, business models, Blockchain in Mobility, Urban Vehicle Access Restrictions, Hydrogen Mobility, Railway Transport, shared mobility, Bus, E-mobility, Transport Hubs, Multimodality, On-demand Mobility, Transport Networks, Mass Transit, Demand Responsive Transport, Intermodality, MaaS.

AUTOMOTIVE

Autonomous Vehicles, Business Models, ridesharing, ride-hailing, carpooling, Connected Vehicles, Drones, Batteries, vehicle-to-grid, E-mobility, Hydrogen Mobility, Shared Mobility, Insurance and liability, Intelligent Transport Systems, Aerospace, VTOL, V2X.

LAST MILE LOGISTICS

Business Models, Connected Vehicles, Autonomous Vehicles, E-mobility, Blockchain in Mobility, Freight, Hydrogen Mobility, Intelligent Transport Systems, Sustainable Logistics, fleet management, waterborne.

MOBILITY

FUTURE AND DIGITAL TRANSPORTATION

Air Mobility, Business Models, Drones, Blockchain in Mobility, Future Mobility, Urban Vehicle Access Restrictions, Mobility Planning, Shared Mobility, Intelligent Transport Systems, Multimodality, On-demand Mobility, MaaS, Payment Systems, VTOL, Intermodality, corporate mobility.

TRANSPORT INFRASTRUCTURE

Air Mobility, Business Models, Blockchain in Mobility, Drones, Fossil Fuel-free Streets, Public Realm, Future Mobility, Urban Vehicle Access Restrictions, Hydrogen Mobility, recharging stations, Railway Transport, Transport Hubs, Intelligent Transport Systems, MaaS, Smart Parking, Smart Traffic Management, Aerospace, VTOL, Ports and waterborne, Mapping, Roads, Smart Airports

ENERGY TRANSITION & EFFICIENCY

Business Models, Future Mobility, Urban Vehicle Access Restrictions, Integrated Mobility Plans, Shared Mobility, Low Carbon Mobility, Zero Emissions, Low Emission Zones, congestion charging.

CITIES INSPIRED BY PEOPLE
