EXPO FOR SUB-SAHARAN AFRICA

Formerly Poultry Africa, VIV Africa connects suppliers with the fast-growing communities of feed production, farming and food processing in Africa. This boutique event includes a very inspiring line-up of conferences next to the trade exhibition.

The 4th edition will cover the complete farm to fork spectrum, expecting over 120 exhibitors to demonstrate technologies and services that focus on the production of Poultry layers and Poultry boilers.

In 2024 we will introduce 2 new sectors: Dairy and Agriculture.
